Broadway Viaduct Replacement

Project Updates

- **SEC MEDIA DAYS:** Thursday is the last day for the event. Once SEC and ESPN trucks and equipment have moved out of the area, Kiewit crews will put the original closure and equipment back in place at the intersection of 10th Ave and Broadway. Their full work schedule will immediately resume.
- **NOISE ALERT:** Noise has slowed down due to the SEC Media Days pause, but it will be ramping back up in the coming days and could last for a few more weeks.
- **DETOUR/CLOSURE ADJUSTMENTS:** An adjustment to traffic signal timing at 12th Ave and Broadway has been made in order to help 1200 Broadway residents enter/exit their building. Since the adjustment, we've seen a significant improvement in congestion and wait times at that intersections. TDOT is continuing communication and coordination with NDOT, MNPD and other stakeholders as we assess the detour plan and closure. Adjustments are being made as needed to make improvements and help traffic flow smoothly.

If you have any questions or concerns about traffic or the project, please reach out to TDOT Community Relations Officer Rebekah Hammonds at rebekah.hammonds@tn.gov
